Breathe in Me Lord

```
          G         G2      G
Breathe in me Lord, let me be
      G                       D7
An offering God, of humility
          G                       C
Of love and grace Lord, of joy and peace
          G         D       G
Breathe in me, God, set us free

          G             G2      G
Let justice flow Lord, as rivers run
      G                     D7
Help me stand God, in the flood
          G                       C
Of pain and grief Lord, of pride and fear
          G       D       G
Let justice flow God, bring us near

        G         G2      G
Show yourself Lord, in my faults
      G                     D7
Fashion truth God, from the nots
            G                   C
Of pride and envy, of lies and theft
        G       D           G
Take me back God, restore my breath

        G         G2      G
Tear the veil Lord, let me see
      G             D7
My salvation, Epiphany
            G                     C
Of hope and pure joy, a pardoned soul
          G       D       G
Tear the veil God, make me whole

          G         G2      G
Breathe in me Lord, let me be
      G                       D7
An offering God, of humility
            G                     C
Of love and grace Lord, of joy and peace
            G       D       G
Breathe in me, God, set us free
```
