

## Holy Accord

### *Chorus*

If there is peace in the rocket's red glare  
Let there be peace in the words we share  
If our hand holds a mightier sword  
Let us seek first a holy accord

### *Verse:*

**Love** stands silent and still  
**Waiting** for a finer vessel to fill  
Can the **weight** of all that we've been  
Move us into **words** with the power to mend?

### *Chorus*

### *Verse:*

With the **strength** of God in these hands  
**Painting** justice on the walls of the land  
From a **seat** of blessing we pray  
Into **humble** communion this day

### *Chorus*

### *Verse:*

Standing **deep** in Creation's soil  
**Dust** from glory, symbols of toil  
Can the **courage** of a faith drawn near  
Trust the **pain** in silent voices we hear?

### *Chorus*
